COMPANY PROFILE

Welcome to Egmonts “At a glance guide” containing an inspirational range of high quality accessway solutions.

At Egmont Doors we pride ourselves on providing quality products and practical solutions to meet your access way requirements.

Since your tastes and needs are individual, our extensive range enables us to make recommendations based on your specific situation.

We are guaranteed to have just the thing to suit your style.

RIBLINE PROFILE

This design, characterised by horizontal lines running the full width of the Garage Door, compliments a wide range of building styles. This is available in Steel and Aluminium with a wide range of colour and window options. Available in V-line or Fineline to compliment modern style homes or Ribline to replicate traditional weather boarding.

“ The workman I had certainly knew his job & I thank him every time the door is opened. ”

V-LINE PANEL

RIBLINE PANEL

RAISED PANEL PROFILE

The attractive wide panel pressings of this design are accentuated by clean, sharp, lines. The up market style of this profile will add value and street appeal to any home. This style is available in Steel and Aluminium, with a wide range of colour and window options.

CEDAR DOORS

The appeal of natural timber can never be underestimated. The long lasting endurance of cedar or exterior grade ply wood provides a unique blend of qualities, which can become the focal point of any home. These doors can be handcrafted to various styles including Cedar Raised Panel, Vertical or Horizontal TG & V and Cedar Ply and Batten designs.

Eurocote “timber look” steel doors are also available, with all the charm of timber but without the level of maintenance required.

FLUSH PANEL PROFILE

The Ultra modern, minimalist appearance of the Flat or Flush Panel Profile is guaranteed to impress. With the addition of negative details your Garage Door will really make a statement.

INSULATED DOORS

No other garage door on the market offers this level of insulation. The tough exterior panels sandwich a unique polyurethane core panel system providing a noise reduction rating of up to 25 decibels.

A full perimeter seal and large bulb seal at the base of the door ensures that these doors are totally draft proof. These seals, together with our unique polyurethane core, mean the doors offer a high insulation R value. Now your garage can be as well insulated as the rest of the house.

“ I have no hesitation in recommending their services to anyone who may be investigating the purchase and installation of a new Garage Door. ”

ARCHITECTURAL RANGE

This exciting segment of the garage door market is continually evolving. Egmont Doors now provides Sectional Doors clad with a wide range of construction based materials, including Nu Wall Aluminium cladding, alu-cobond, Alcotex, and Corrugated Iron. Each Garage Door design can be tailored to suit your individual tastes and requirements. By the addition of the German Based Hormann range we can now supply a unique range of High Class Garage Doors built to exacting standards. Designs can include matching Garage and Entrance doors to further enhance your residence.
